E. Board Priorities Update

A. Kittleberger noted that the board has logged approx. 100 hours, to date, related to the executive director search currently underway. The board continues to make the executive director search and the 2016-17 budget its top priorities.

II. Finance

A. Budget Update

L. Leonard provided the board with Vida Charter School's funding structure, current financial outlook and budgeting process for clarification purposes.

Funding Structure: Vida, like other public charter schools, is funded through a combination of state and, to lesser extent, federal taxpayer dollars. Each student in the PA public school system is allotted a set amount of tuition that flows from the state, through the district in which the child lives, and then to Vida. The tuition amount assigned to each child in PA varies by the school district in which the child lives and whether or not the child qualifies for special education services.

Despite what taxpayers might assume, Vida operates on less revenue per student than the districts do with some funds remaining with the school districts. For example, the cost to transport each child remains in the local school district, as that school district must bear the cost of transporting that child to Vida. In cases where a district is not asked to provide a Vida transportation, the school district still retains the transportation funds. Likewise, the facilities costs included in the tuition rate also remain with the school district, leaving Vida (and other charter schools) to self-finance their facilities needs.

Current Fund Balance

Vida is operating with a \$2.7 million dollar budget for the 2015-16 school year (figure based on 240 students enrolled).

Through careful stewardship over its first five years, Vida accumulated a fund balance (savings) of around \$1.1 million. Of the \$1.1M, Vida's board reserved \$600,000 of that fund balance for future facilities and \$350,000 for future personnel expenses. The remaining \$175,000 is unallocated. This "reserving" of funds is common practice among school districts and allows them to strategically budget for projected expenses. The Executive Director, working with Vida's business consultants and the board, identified two distinct organizational needs: 1) to expand the school facility to accommodate its growing

enrollment, and 2) to provide technology upgrades and comprehensive curriculum purchases. Toward this effort, the board approved the purchase and installation of the modularity, at approximately \$200,000, to be spent from the reserve funds for facilities and roughly \$110,000 in technology and curriculum purchases to be spent from the unallocated portion of the fund balance. Vida's current fund balance is \$815,000.

Current (2015-16) Operating Budget Last year, Vida projected enrollment to be at or around 260 students and created a \$2.9 million budget. Enrollment did not remain at this level and instead has hovered around 240-245 students, decreasing annual revenue from 2.9 million to 2.7 million. The Executive Director identified the budget impacts of changing enrollment early in the year and has made adjustments in spending throughout the year to decrease the impact of the shortfall. At the end of March, Vida's 2015-16 operating budget was at a \$47,000 surplus. By the end of the fiscal year, Vida's accountants project up to a \$100,000 shortfall. We continue to monitor the budget and to make adjustments to reduce the potential shortfall. Whatever shortfall Vida may incur will be paid from the remaining fund balance.

2016-17 Budget Planning Process Next year's budget planning process is well underway. Our Executive Director began working with our business consultants in February to gauge student enrollment (revenue) for next year and to identify spending priorities. Enrollment is projected to be around 270, resulting in a budget of around \$3.1 million. A new priority expense in 2016-17 is the lease of the entire Eisenhower building, resulting in an additional \$15,000 in expenses per month. Other priorities are: new math curriculum purchasing and technology upgrades for the remainder of the Eisenhower building. The finance committee has been working closely with the ED and Vida's business consultant to create a balanced budget. Currently we have a \$57,000 gap to close to reach a balanced budget. With the resignation of two teacher assistants, whose positions will not be filled, the gap may be closed. In May, the finance committee will review the final draft of the budget and will vote to recommend the board approve the draft in its regular May meeting. In the May regular board meeting, the board will be asked to adopt a proposed budget for 2016-17 and Vida will place the 2016-17 proposed budget on public display (Vida's website) for 30 days. Following the period for public input and any final adjustments, final approval of Vida's budget will take place at the June regular board meeting. Like other public education executives, Vida's ED continually strives to balance the need to provide high quality instruction against the need to operate efficiently in an effort to ensure the long-term viability of the school. Vida's finance committee and its board provide oversight of the budget process in order to ensure sound stewardship of taxpayer money and to ensure adequate resources remain available to support the instructional program and mission. Vida is in a strong position on both of these fronts as we look toward the coming school year.
