Related Material: Quote #1 Les Olson.pdf
Quote #2 Create Spaces.pdf
Quote #3 CDW Newline.pdf
Quote #4 Epson Large Venue Projector.pdf

BACKGROUND:

The Durango gym projectors need to be updated and replaced. After reviewing several options, it has been determined to replace them with an LED display screen. The screen will be used for classes in the gymnasium, assemblies, athletics as a scoreboard and for graduation. The life expectancy of display screen is up to 10 years where projectors are up to 5 years and they start to lose their brightness after 12 months. The cost of the LED display is similar to the price of 2 projectors. Please see attached documents to include the Les Olsen quote that is being recommended for approval, and 2 additional quotes.

RECOMMENDATION:

To approve the purchase of a 165 LED display TV for $52,435.00

Please review the below quote and use buttons Deny or Accept.

Scope of Work

Overview

Create Spaces will furnish and install a complete audiovisual system for Amplus Academy's Durango Campus, covering two distinct spaces: the Gymnasium and Room 115 (Hybrid Classroom). The systems are designed to enhance instructional delivery, event presentation, and hybrid collaboration, providing seamless operation and professional-grade performance.

1. Gymnasium

1.1 Video System

- Install two 163" ViewSonic LED video walls for large-format visual display.
- Provide AVer 4K Auto-Tracking PTZ camera for event capture and streaming.
- Integrate HDMI and USB connectivity through a custom wall-mounted patch panel for flexible input/output options.
- Extend video signals via Kramer HDMI extenders to ensure reliable transmission across long distances.

1.2 Audio System

- Deinstall the (2) blown speakers and replace and install (2) new Electro-Voice surface-mount speakers in place of the old speakers.
- Implement a Shure Microflex Wireless System including handheld, lavalier, and bodypack transmitters with a four-channel access point and Dante integration.
- Provide Netgear M4250 AV switch and required network infrastructure for wireless and Dante audio transport.
- Provide XLR and 3.5 mm audio connections at the patch panel.
- Connect all components to a centralized rack-mounted DSP for signal processing and control.

1.3 Infrastructure

- Install structured cabling (CAT6, HDMI, XLR, and USB) using plenum-rated shielded cable per code.
- Provide patch panel, rack enclosures, and necessary interconnect hardware.

2. Room 115 – Hybrid Classroom

2.1 Video and Conferencing

- Deploy a Neat Bar Pro video conferencing bar and Neat Pad controller for Microsoft Teams/Zoom integration.
- Install ceiling-mounted Shure Dante loudspeakers for uniform in-room audio.

2.2 Wireless Audio System

- Implement a Shure Microflex Wireless System with handheld and bodypack lavalier microphones for classroom interaction and remote participation.
- Integrate with Netgear M4250 AV switch for Dante audio distribution.

3. Installation and Integration

- Perform complete installation, programming, and commissioning of all AV systems.
- Conduct system testing, calibration, and client training to ensure reliable operation.
- Provide as-built documentation and single-line diagrams upon completion.
- Include all general consumables, hardware, and shipping as outlined in the proposal.

4. Exclusions

- Electrical conduit, power circuits, and backboxes (unless specifically noted).
- Network configuration beyond AV system components.
- Structural modifications, painting, or patching.
- All Millwork.
- Permits (unless specifically provided for and identified within the contract).
- Unless otherwise stated, the pricing is this agreement does not include prevailing wage or union labor.
- Unless specifically noted, lifts and scaffolding are not included.

Please note: Labor pricing has been charged within normal working hours (8am-5pm). Work outside these hours will result in additional charges.
