Susan and Elizabeth shared out our preliminary Fall NWEA data.

Dimensions - NWEA

- Focus on grades 3rd-8th -
  * 102 learners - 33% sped and 28% are new to our school
- Grades K-2 are typically stronger
- Susan shared out some of the demographics for our building as well that is contributing to our climate and culture
- 38% of learners are proficient for math
- 47% of learners are proficient for reading

Overman - NWEA

- Focus on math scores especially with the facilitator make up that is happening right now
- Looking at the scores and what the math groupings look like
- Next step is to look at the building as a whole to see where we are at as compared to the Performance Measures

Moving forward going to need to separate the data by returning learners and new learners to look at longitudinal data

Pathways 2 Careers (P2C) - District purchased this math curriculum that can be used flexibly at Dimensions and Overman to support learners with math concepts that can be pulled out and used as needed and doesn't need to be done sequentially

C. Longitudinal Data as presented to HighMark & Raymond James
