Director's Report

The current enrollment is 344. The Director would like to enroll more than 360 students, in case not all students arrive on time. Our target set at 376, with extra enrollments will mostly go to the 7th grade.

Mr. Skerrit, of our security staff has asked to use seven classrooms and the gym of the middle school (our students and staff are not involved) for a religious gathering:

We will need a formal request and a contract exempting us from legal liability.

We (the board) will provide an answer up review of documents.

We want to add K-6 to our charter as part of our charter renewal: This is a significant change to our charter and requires board approval before the renewal is submitted. The Board is extremely supportive of the measure.

Y. Bilgic made a motion to Approve Material Charter Revision (addition of grades K-6).

D. Calder seconded the motion.

The board **VOTED** unanimously to approve the motion.

C. New Building Rent Addendum

Rental agreement for the new building was revised to reflect decisions made at the last board meeting (e.g. Terra Science and Education will fund all renovations to the new building). The new rent will be \$359,000 per year to be paid in monthly installments of \$29,916.67.

Y. Bilgic made a motion to Approve the new rental rate for the new building (\$359,000 per year to be paid in monthly installments of \$29,916.67).

D. Calder seconded the motion.

The board **VOTED** unanimously to approve the motion.

D. IT Purchases next year and IT Purchases over \$20,000 Threshold Limit

Currently we have TVs in the middle school and projectors and Smart Boards in the High School. Smart Boards need to be replaced. Teachers were surveyed on preference for TV or Smart Board.

TVs were preferred by a substantial majority so the IT team is recommending that Smart Boards be replaced by TVs. Transitioning to TVs also will save somewhat on operating costs. Bids were solicited from three vendors, IT recommends the bid submitted by Best Buy, from whom we purchased our previous TVs (based on warranty and local presence for service).

The New School Building does not have Data Cabling that is up to code, so it needs to be installed. Because of changes to plans and new building codes, the contractor renovating the building cannot install the new cables. We need to hire contractor who will install the cables and conduits. IT solicited three bids. However, given the changes to the codes, costs will be higher than the quotes indicate; the additional costs are uncertain, so the Board will have a special session to approve the expenditure next Thursday.

The new building needs a good quality, expandable security system. Five bids were solicited, but only one responded positively, it is the recommendation of the IT department that we accept the bid that we have received (the company is local). IT department will provide documentation of the bid solicitations. Estimate was for \$52K for 38 cameras and the operating software and hardware.

Additional equipment will be needed for the Library/Administrative offices. PA system needs to be installed, Intercom needs to be installed. All of these items are included in the 2016-2017 Budget.

Y. Bilgic made a motion to Approve purchase of 17 TVs along with iPads as recommended by IT Department and outlined in the Best Buy Bid.

D. Calder seconded the motion.

The board **VOTED** unanimously to approve the motion.

Y. Bilgic made a motion to Approve the purchase of 38 cameras, and the hardware and software for operating them as outlined in the Seibold Bid.

D. Calder seconded the motion.

The board **VOTED** unanimously to approve the motion.

E. 2016-2017 Contract Renewals-Non-Renewals
